

## List of Approved Cars UK

### "Semi-universal" with ISOFIX fastening and support leg

This means: The child car seat is approved for installation using the **ISOFIX fastening and support leg** only in those vehicles cited on the vehicle type list below.

- This is an ISOFIX CHILD RESTRAINT SYSTEM. It is approved to regulation No. 44.04 series of amendments for general use in vehicles fitted with ISOFIX anchorage systems
- It will fit vehicles with positions approved as ISOFIX positions (as detailed in the vehicle handbook), depending on category of the child seat and of the fixture.
- The mass group and the ISOFIX size class for which this device is intended is: B1 (9-18 kg) & D (0-18 kg).

**DO NOT use on a passenger seat with a front airbag!**  
 = airbag off! Please observe the instructions on the use of child safety seats described in your ownersmanual.

**Never support the support leg of the adapter against a storage compartment in the vehicle floor.**

▼ = okay with storage compartment! You may only use the adapter on the seats with storage compartment which have been checked and approved by us.

- 1) The storage compartment cover must be removed. The support leg must be pulled out until it comes to rest safely on the floor of the storage compartment.
- 2) Consult vehicle manufacturer for access to ISOFIX anchorage points though vehicle seat.
- 3) Due to the rearward location of the ISOFIX anchorage points and interaction with the vehicle seat upholstery, care must be taken to ensure that ISOFIX is correctly latched
- 4) Middle row of seat in forward most position.
- 5) Vehicle seat in rear most position to avoid contact between foot prop and storage compartment lid.
- 6) Vehicle seat in rear most position.
- 7) Approval only with an additional filler piece in the storage compartment (available as a Volkswagen accessory)

Before you purchase the vehicle, check that it is equipped with the appropriate anchorages

airbag off!  
 okay with storage compartment!
